ARYAMOL VH

SOFTWARE ENGINEER

Objective

Motivated and fast-learning Python Full Stack Developer with a solid understanding of Python, Django, HTML, CSS, BOOTSTRAP, and JavaScript. Seeking an entry-level position to gain hands-on experience, contribute to meaningful projects, and grow in a collaborative development environment.

Internship

FULL - STACK DEVELOPER (Luminar Technolab Kochi)   **2024 Feb-Sep**

- Back-End Development
- Front-End Development

Skills

- Languages: Python, SQL, C, HTML, JavaScript, CSS
- Knowledge of Machine Learning and Data Science Concepts
- Frameworks and libraries: Django, Boot Strap, React
- Database: MySQL, SQLite
- Version Control: GitHub
- IDEs: Jupyter Notebook, Visual Studio Code, PyCharm
- Personal Skills: Critical thinking, Analytical skills, Communication, Leadership

Projects

E-commerce Platform (Django, SQLite):
Developed a robust e-commerce platform using Django, enabling users to browse products, manage shopping carts, and complete purchases. Implemented user authentication, order tracking, and integrated payment gateways to ensure a seamless shopping experience. Utilized HTML, CSS, and Bootstrap for responsive and attractive UI design

I am not fake - Deepfake detection (Python, Flask, VGG-16):
Created a deepfake image detection system utilizing Machine Learning techniques and Flask-based web application for real-time analysis.

Job portal Platform (Django, SQLite):
Developed a fully functional Job Portal application that allows users to register, post job listings, search and apply for jobs, and manage their profiles. The application includes features for both job seekers and recruiters, offering an intuitive and user-friendly interface.
